URGENT NEED – Flood Buckets – Major Flood Event

A major flood event is unfolding in the mid-section of the US. Catastrophic flooding of the Mississippi, Missouri, and the Meramec Rivers as well as their tributaries is occurring. Rain continues to fall in these areas with forecasts for rain to continue for days to come.

MNA Disaster Response is on the ground working with local PCA pastors and leaders as well as community officials to assist with the needs presented by this flooding event. The first delivery of flood buckets and hygiene kits has been delivered to St Louis MO. Once waters have crested local volunteers will be mobilized for the initial cleanup work. In the meantime there is an urgent need for flood buckets to be assembled and sent to the MNA Disaster Response Warehouse in Rome GA. [Click here](#) for instructions on flood bucket assembly and shipping/delivery information.
